Laurie Agate
Canadian Progress Club
Calgary Wild Rose

Dear Ms. Agate,

On behalf of the Calgary Sexual Health Centre, I would like to sincerely thank the Canadian Progress Club, Calgary Wild Rose for your generous contribution.

Through your support, the Calgary Sexual Health Centre will be able to produce and print booklets for parents on the topic of talking to your children about sexuality. This is a very valuable resource for parents as it outlines some of the key components of this area of child development. This resource used to be provided to us free of charge from Alberta Health. However, it was recently announced that this, along with several other sexual health resources, will no longer be made available to community agencies. As a result, there was potential that we would no longer be able to distribute this very worthwhile document to the many parents we reach every year.

Thank you again so much for assisting us in our work to provide Calgarians with relevant resources regarding their sexual health. We appreciate your support in fulfilling our mission, "Building the foundation for informed choices and sexual well-being".

Sincerely,

Pam Krause
Executive Director
